OTHER HAZARDS AFFECTING LAND AREAS

CALOY is unlikely to directly affect the country throughout the forecast period.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The eastern seaboards of Northern Samar, Eastern Samar, and Siargao-Bucas Grande Islands; the seaboards of Batanes; the western seaboard of Babuyan Islands; the northwestern seaboard of Ilocos Norte.
- **Up to 2.0 m:** The remaining seaboards of Ilocos Norte and Babuyan Islands; the eastern seaboards of Cagayan, Isabela, Camarines Norte, Catanduanes, Albay, Sorsogon, Dinagat Islands, Surigao del Sur, and Davao Oriental; the northern seaboards of Camarines Sur, Catanduanes, and Northern Samar.
- **Mariners of montorbancas and similarly vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- Tropical Storm CALOY will continue moving west northwestward throughout the forecast period and will remain over the Philippine Sea, far from the Philippine landmass.
- Weakening trend will likely begin this afternoon or evening. It is forecast to be downgraded into a tropical depression between this afternoon and evening and further weakening into a remnant low tomorrow (11 May).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
